DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3,5,7,8,18,19 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ollila.

Applicant argues that Ollila does not disclose a bipolar alternating current waveform. However, Ollila discloses, as claim 1 recites, an electromagnetic drive 1, wherein the control system supplies a pulse width modulated drive signal (6) defining an alternating current waveform (a PWM waveform is by definition bipolar; a current waveform alternating between two levels) to the drive 1 (via switched mode power source 5), and the drive signal is generated by a DC supply 10 (Col. 2, lines 33-35).

Claims 4,6,9-13,15-17 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2837

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
